

UEI: WNBYP1YNCNW1
CAGE: 87GY7

Schedule
Contract # 47QRAA24D005H

Professional Engineering Services Company

- Founded in 2017 | HQ in White Plains, MD 20695
- Specializing in Aerospace and Defense Sector
- NAICS Codes: 541330 (Primary), 541380, 541420, 541715, 541990, OLM
- Provided management and technical services to support full life-cycle design, development, and application of \$1.6B+ in NASA Mission-Critical Assets (Flight Hardware and Critical Ground Support Systems)

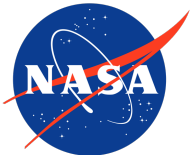

Core Capabilities

Dedicated to "risk-based knowledge" and empowering the aerospace industry with robust, reliable, and safe systems.

Federal Customer

Trusted Federal Teaming Partners

Stakeholders

Risk Management Corporation

*Company Past Performance

NASA Projects

Primary Contact

Claude (Al) Sanders, Jr., CEO/President

Program/Project Management

Development of comprehensive project plans, ensuring adherence to timelines, budgets, and quality standards.

Reliability Engineering

Specialize in predictive analysis, fault tolerance, and reliability assessments to enhance the dependability of aerospace systems, minimizing failures and downtime.

Risk Management

Identify, assess, and mitigate risks associated with aerospace operations.

Systems Integration & Test

Support of integration and test of various aerospace components and subsystems, ensuring optimal functionality and interoperability.

Quality Assurance Engineering

Perform quality control processes and compliance evaluations to ensure aerospace systems meet the highest industry standards and regulatory requirements.

Documentation & Certification Support

Provide comprehensive support for obtaining certifications and approvals for aerospace systems and components.
